TAP:
ALL-IN-ONE J SPOUT MATT BLACK

Introducing

SORGENTE

The new multi-functional tap

We are delighted to now exclusively offer the Nobili Sorgente multifunctional tap range. These European made systems offer numerous benefits versus comparable brands.

Key Features

The Sorgente range

NOBILI
daily wonders

99° HOT WATER CAPACITY
That's **OVER 30% LARGER** than comparable brands

All Sorgente systems come complete with a 4 litre hot water capacity; that's over 30% larger than comparable brands offer as standard!

COMPETITIVE PRICING
= greater earning opportunities

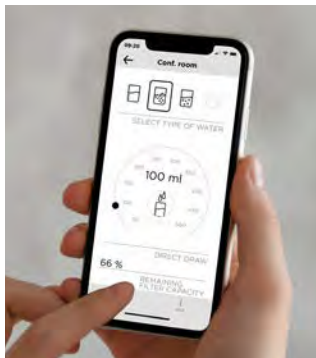

We offer competitive pricing and sell to trade only, giving greater earning opportunities versus comparable brands.

sodastream
COMPATIBLE

The Sorgente range is compatible with widely available 3rd party consumables including Sodastream® CO2 cannisters, which in addition to significantly reduced running costs, can be purchased individually, and recycled locally!

While simple to connect and set up, we have partnered with Service Box™ who offer unparalleled installation, servicing and warranty support.

COMPATIBLE WITH UNIQUE SORGENTE APP

All-In-One taps are compatible with the Sorgente App, enabling users to fine-tune boiler temperature (60°-99°), chilled water temperature (4°-15°) and water carbonation levels.

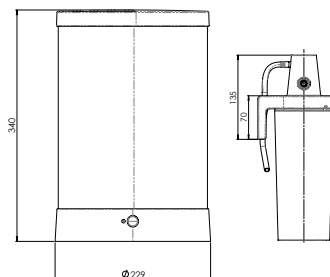

Despite the higher capacity, the Sorgente All-In-One System fits neatly inside one unit under the sink.

INSTALLATION REQUIREMENTS

Systems should be installed within 500mm of a cold water feed, 800mm of a standard 240V mains power supply, and in an accessible space of the following dimensions:

Mechanical & Electronic Systems

All In One Systems (as shown above) require the following space:

Width 300mm
Height 440mm
Depth 550mm

NOTE: The cabinet in which the AIO system is installed must be sufficiently ventilated. Therefore, an opening of approx. 20 × 40 cm (800 cm²) in the rear panel of the cabinet must be provided.

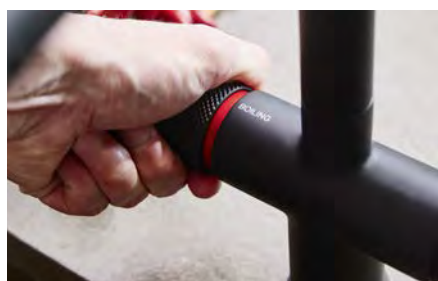

Multi-functional

The Sorgente range

MECHANICAL HOT TAPS
